7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

Our institution places a strong emphasis on fostering a supportive and inclusive environment for women, and we have taken concrete steps to provide facilities that cater to their unique needs. Safety and security are paramount, and we have spared no effort in creating a secure campus. We understand the importance of feeling safe, and that is why we have implemented comprehensive security measures, such as 24/7 surveillance and the presence of dedicated security personnel. We want every woman on our campus to have peace of mind, knowing that their well-being is our top priority.

To promote a sense of community and relaxation, we have established comfortable and welcoming common rooms exclusively for women. These spaces are designed to encourage social interactions and provide a peaceful retreat during busy academic days.

Furthermore, we are committed to continually evaluating and enhancing our facilities and services to align with the evolving needs of our female students and staff. Our dedication to supporting women's growth, safety, and success knows no bounds, and we eagerly welcome feedback and suggestions for further improvements. Together, we are building a thriving and inclusive community where women can flourish and achieve their dreams.

Dr. Goutam Chatterjee
